

Form amends

Red - Not done
Grey - Done
Orange - Ignore

Across all forms:

- **Calendars: Make wider. See dining 'request time & date'.**

Dining Reservation

- 1) Smoking / Non Smoking - radio button should not be preselected.
- 2) Under "Your Hotel", room number field appears when one of AYANA's properties is selected. There is a repeat of the "Room Number" field after Check-in date. Remove the second one.
- 3) **For the "Room Number" field, set such that guests can only type in numbers.**
- 4) Need to add the number '0' in the adults and children dropdown.

Spa Reservation

- 1) "Treatment Category" has numbers within the drop-down selection.. Is that required?
- 2) "Treatment Category" - SOTR needs to be spelled out "Spa On The Rocks Treatments"
- 3) Add "remove treatment" CTA & also spacing between / label treatments (will pass Jai an example)
- 4) Need to add number '0' in the number of guests form.

Wedding Contact Form

- 1) Service Request - radio button should not be preselected.
- 2) Number of Guests should be free form

Meetings & Events

- 1) Additional Leisure Activities - should be a toggle YES/NO, not a radio button. take note of spacing before and after this field (mobile amend, Aud will explain to Jai).
- 2) No of participants we can leave it as an open field for guests to put in. There could be large number for example 50 - 100.

Across all forms:

- Check boxes: Ticks disappear too slowly when unchecked
- **Check boxes: Please make them the same line weight, colour & opacity as the other form field boxes [Audrey to confirm if this is done or not].**
- **Check boxes: Alignment of box to corresponding text (on mobile).**
- **Radio buttons: Alignment of button to corresponding text (on mobile).**
- Fonts: For "How Can We Help You?" and all form titles. Wrong font used.
- **Contact Number / Room Number: Field set such that guests can only type in numbers (same for all the other open fields for numbers)**
- The information does not reset once I change the main 'reason for contact'. For example I filled out something in General Inquiries but didn't send it yet. I go to Dining Reservation form and fill it out but when I go back to General Inquiries, what I have filled out in the form is still saved. It should reset every time.
